DONOR BOOKING SYSTEM FOR PATIENTS

About OvosmartSoft® ivf-tech platform

Ovosmartsoft® is a sophisticated ivf-tech **CRM platform** for egg donor banks, fertility clinics, surrogacy agencies. The system covers all processes of working with egg donors: from the moment of personal donor card creation to donor ordering stage. Ovoss® incorporates the following modules: agent workspace, egg donors, clients, administrators, donor ID system, online donor booking interface for patients.

With Ovosmartsoft's **ability to manage both egg donor and surrogate mother data**, clinics and agencies can use a single platform to streamline all aspects of the fertility process.

UNIQUE donor ID system

Ovosmartsoft can generate a unique coding system for each egg donor, consisting of a combination of numbers and letters. This code can be used to identify the donor throughout the entire egg donation process, from initial screening to final donation. With this feature, clinics can ensure accurate tracking and management of donor data, as well as maintain donor confidentiality.

ID assignment process

When a new donor card is created in Ovosmartsoft, the system automatically assigns a unique ID to the donor based on the established donor coding system. This ID is used to identify the donor in all further interactions with the donor information, such as creating a profile, booking a donor, or exporting donor data. The unique ID is used to maintain donor anonymity ensuring the protection of donor privacy.

EXPORT. IMPORT donor data

The donor data export/import allows for seamless transfer of donor information from one system to another. This feature enables users to import donor data from other systems and export data from Ovosmartsoft in a user-friendly excel format that can be easily shared with third parties. **Import/export functionality eliminates the need for manual data entry, which can be time-consuming and prone to errors.**

CUSTOMIZABLE egg donor workflow

Ovoss provides a fully customizable workflow that can be tailored to fit the specific needs and preferences of each clinic or agency. This means that you can create a unique process that fits your ivf facility specific requirements.

Customize egg donor profile, medical history

Customize online booking system layouts

NOTIFICATIONS

donor booking

Ovosmartsoft offers a notification system that sends **automatic email notifications to clients upon registration and egg donor booking confirmation details**. The notification system ensures that clients stay informed throughout the process.

ADVANCED

security measures

The advanced security measures in Ovosmartsoft are designed to protect sensitive donor data from unauthorized access or theft. Ovosmartsoft uses industry-standard encryption to secure data transmission and storage, and provides user access controls to ensure that only authorized personnel have access to sensitive information.

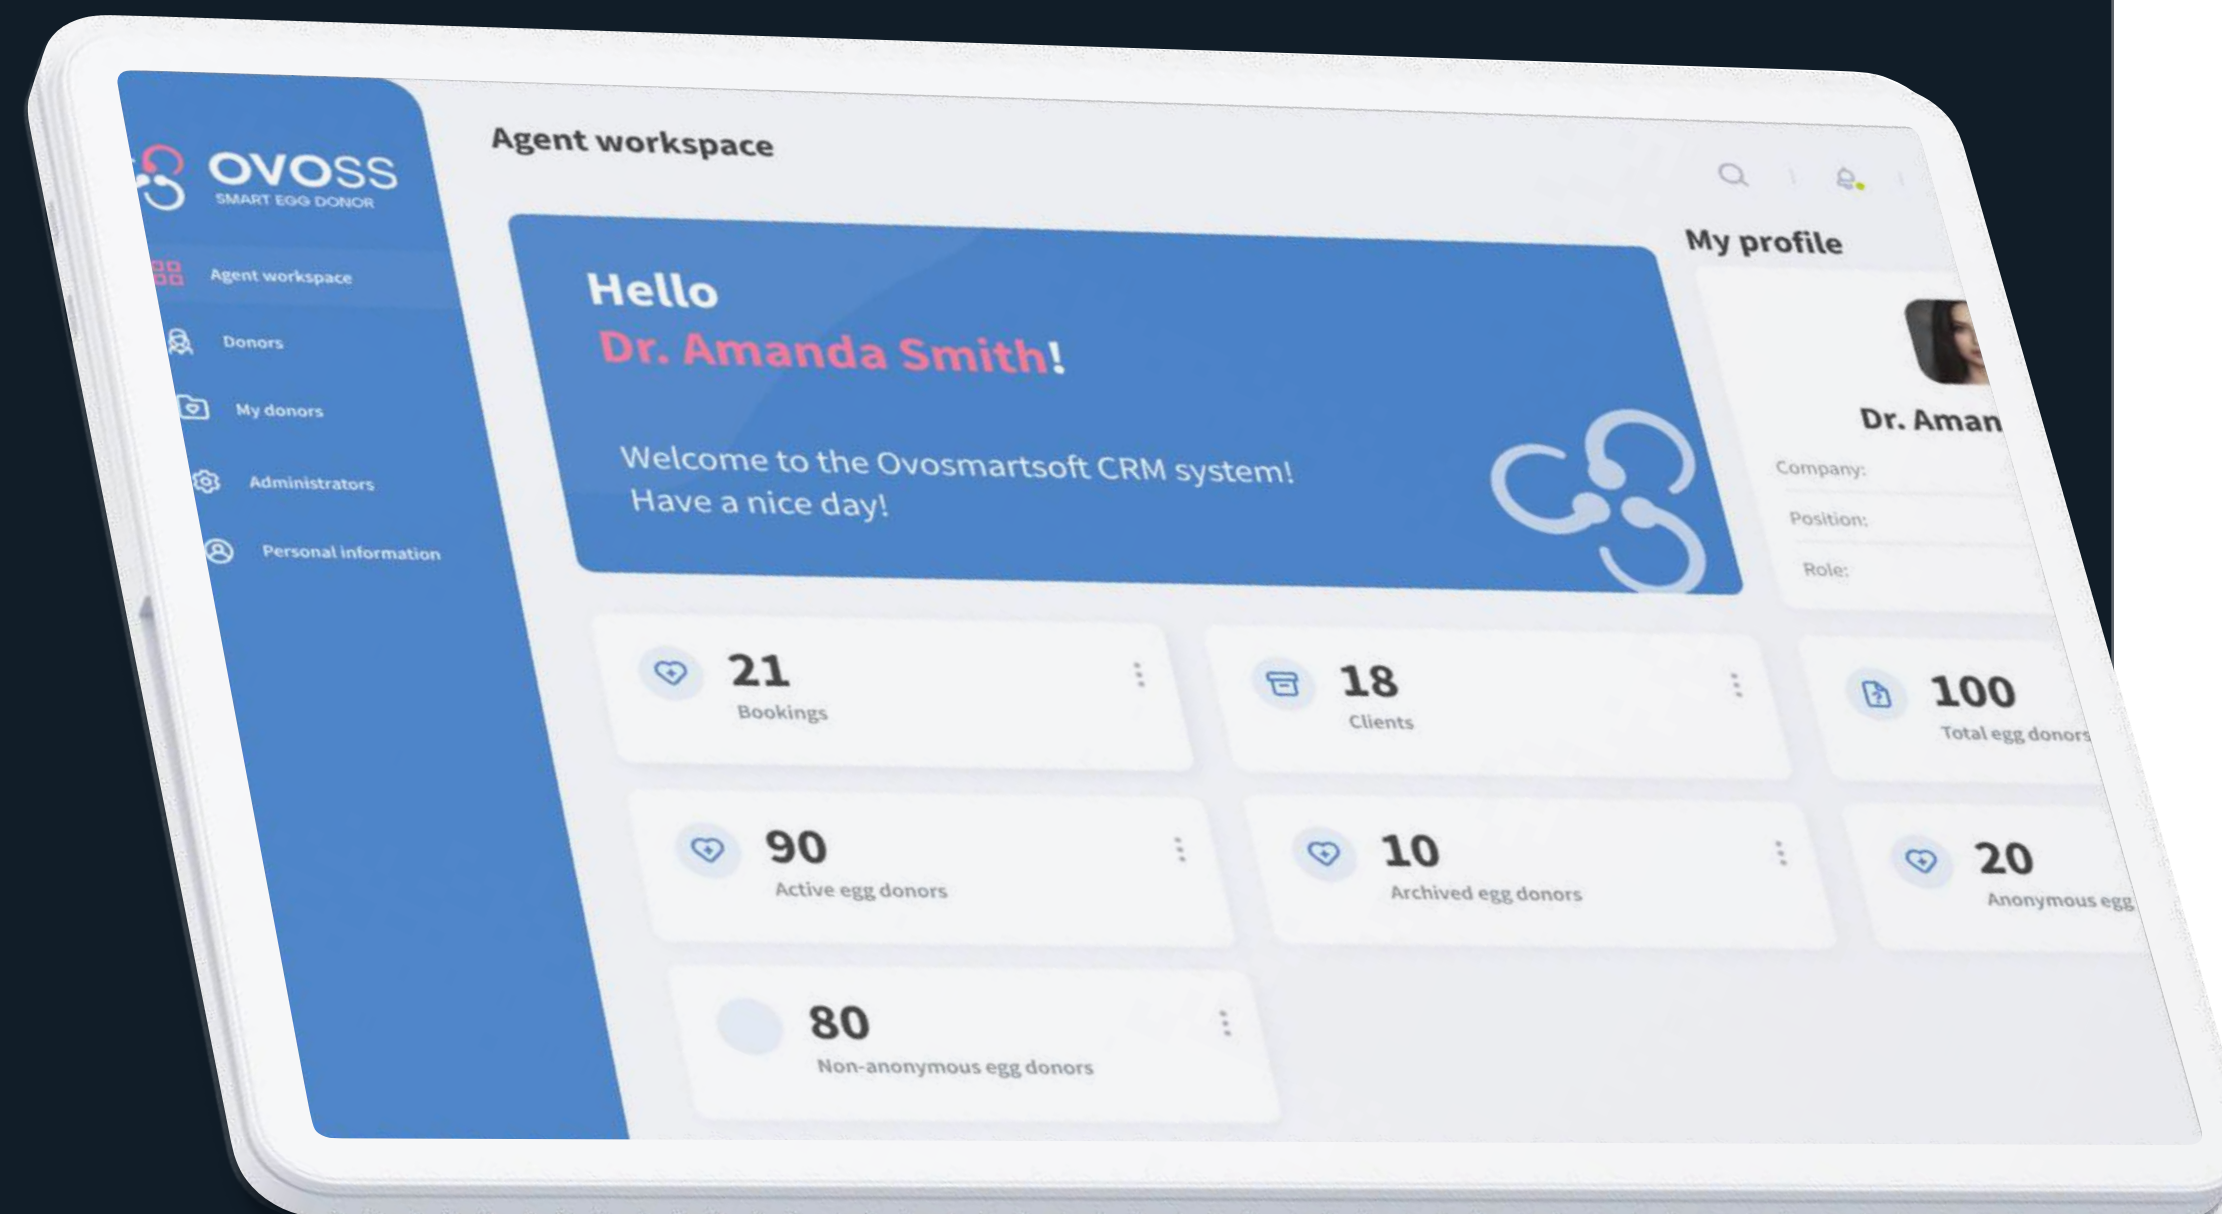

Also are included audit logs that record all user activity, so you can track who has accessed donor data and when.

Intelligent analytics

With Ovosmartsoft's Intelligent Analytics, users can easily track and analyze key performance indicators, allowing for data-driven decision making and improved efficiency. The feature provides a clear and concise overview of the egg donation program, allowing users to stay informed and make informed decisions.

ONLINE EGG DONOR BOOKING

Give your patients
the best experience!

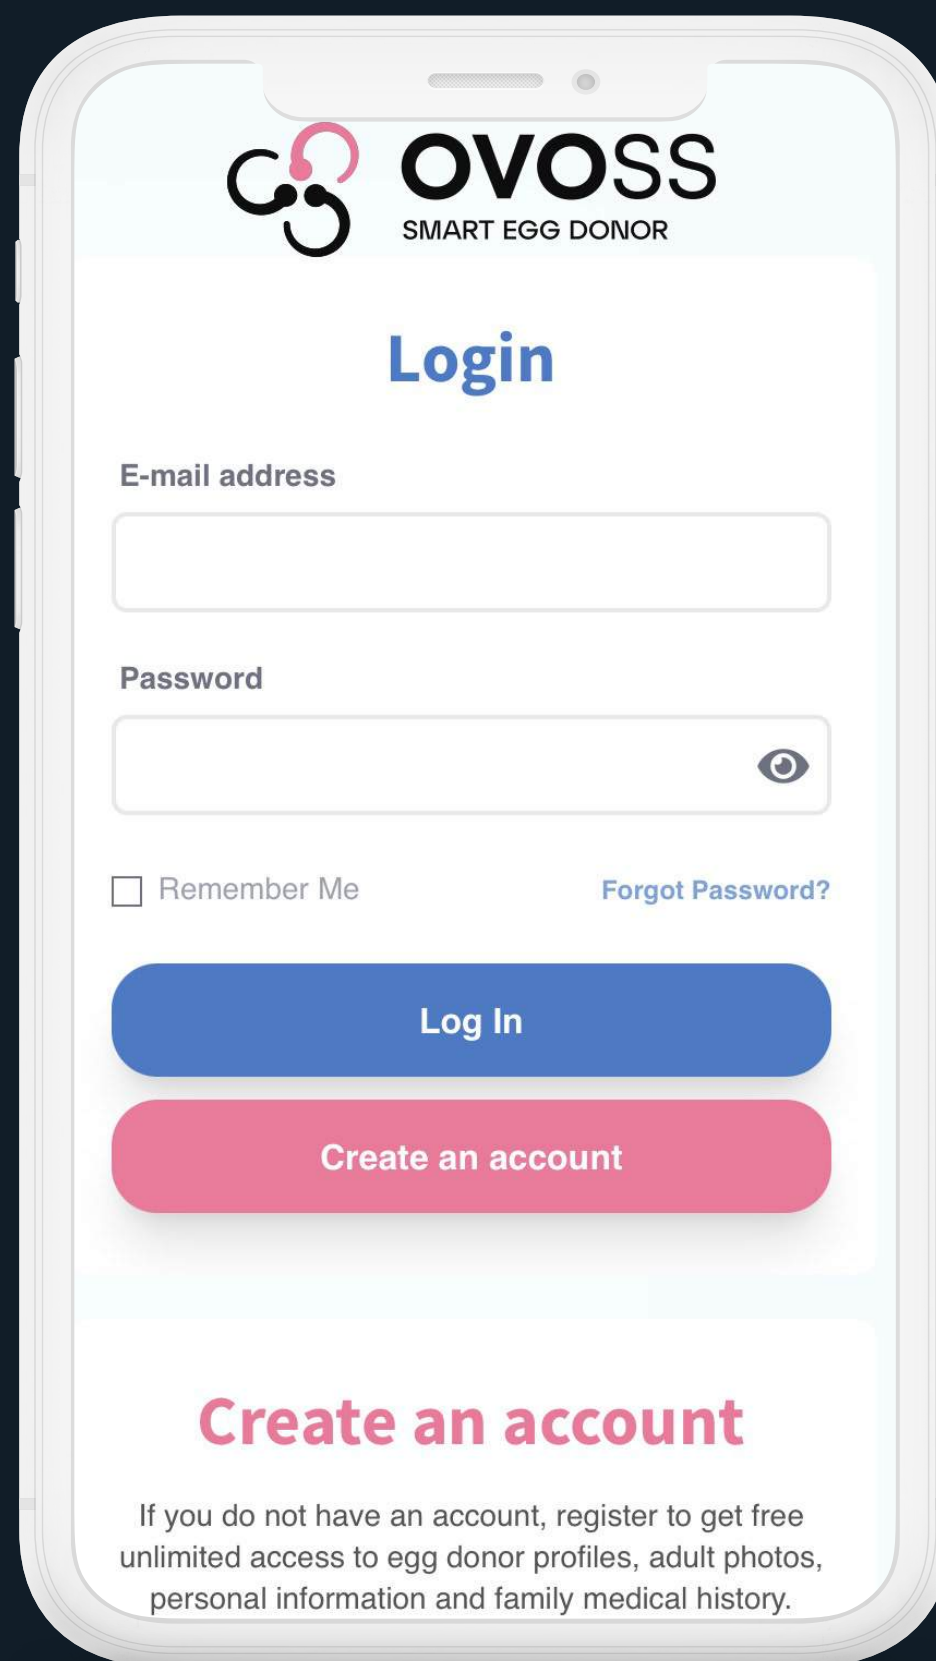

EGG DONOR BOOKING

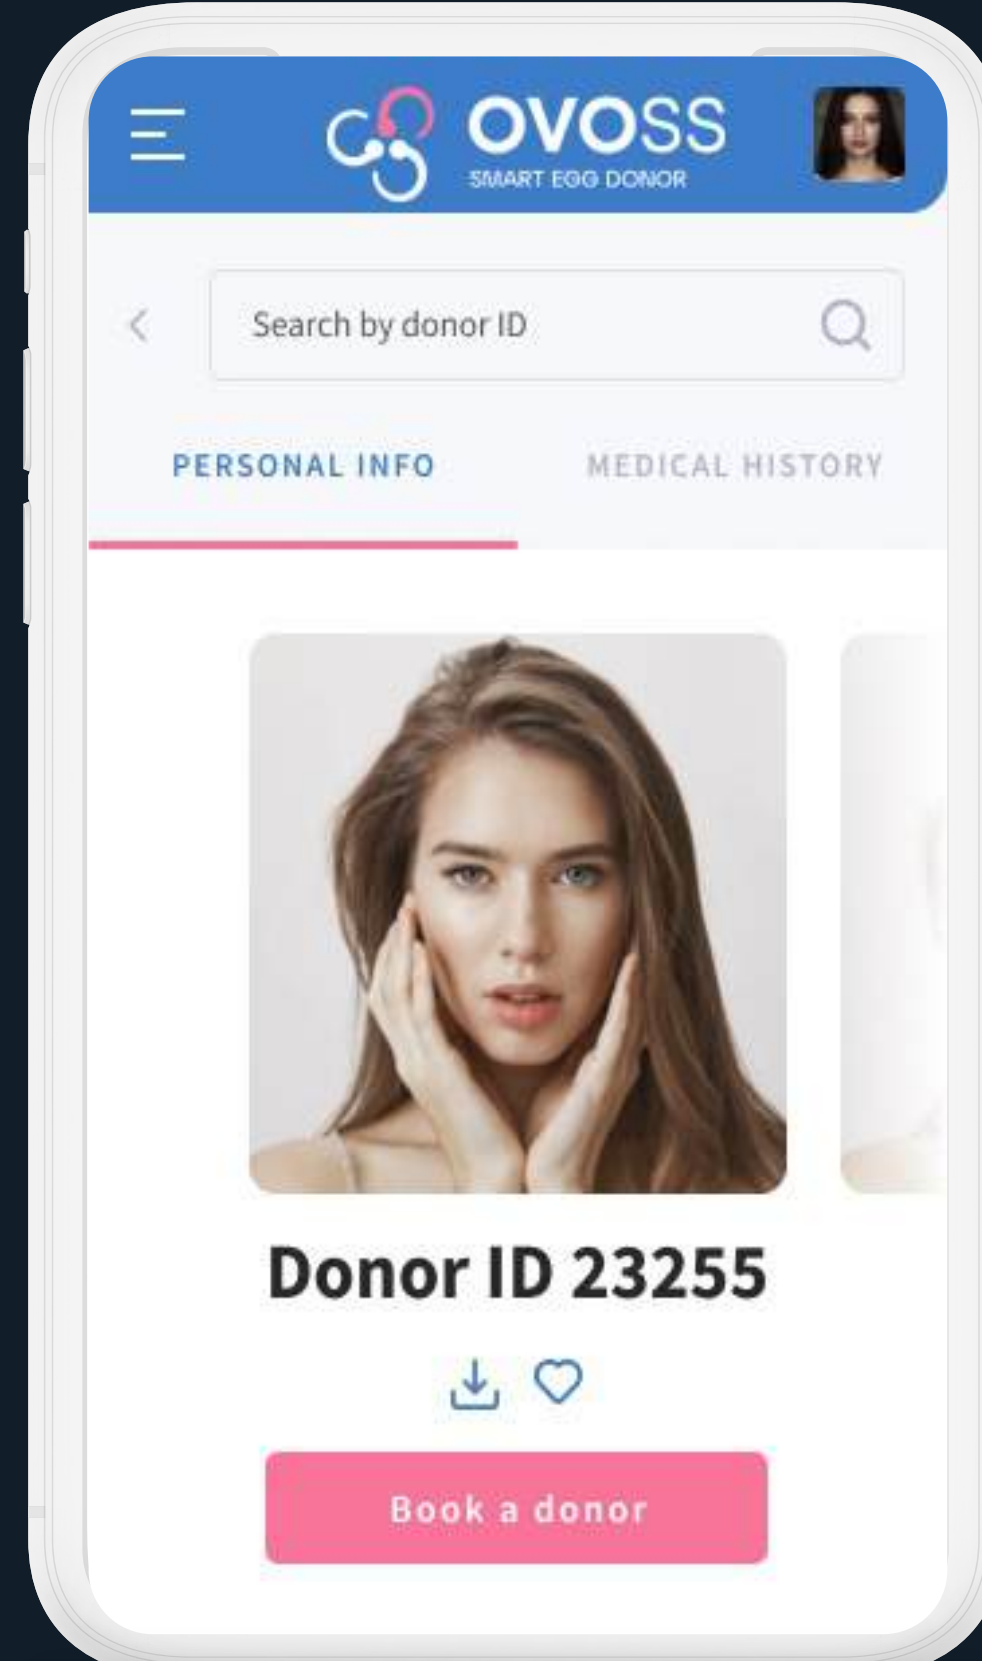

features

Ultimate donor booking system allows your clinic patients an easy and convenient way to browse and book egg donors online

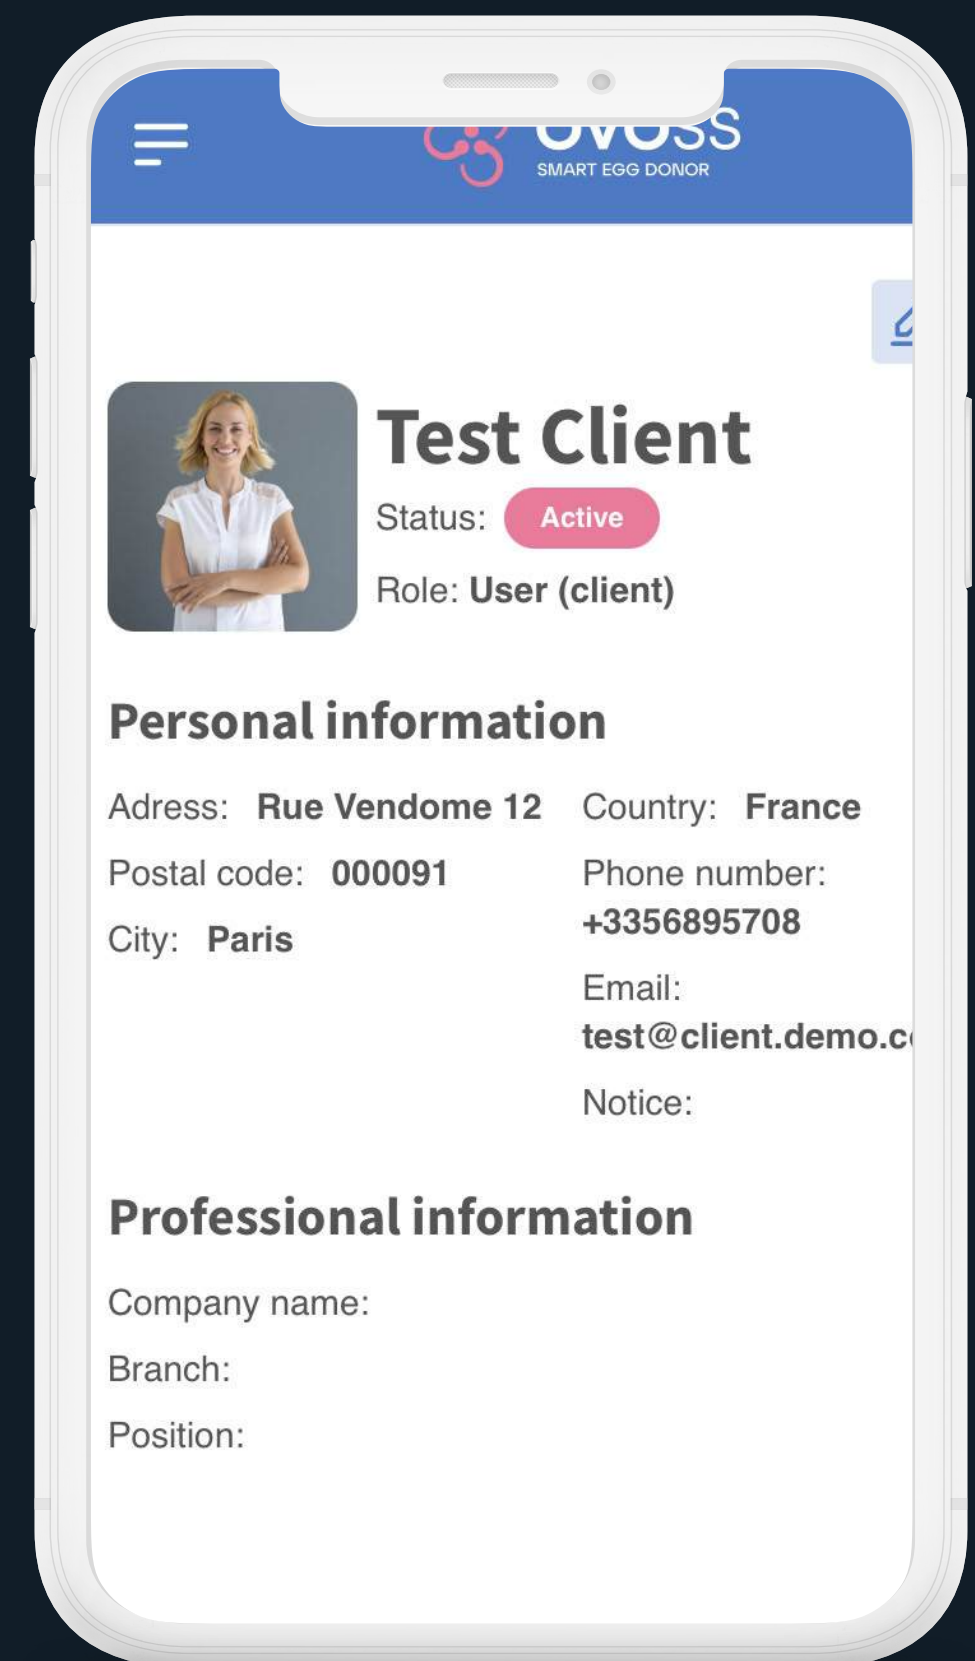

- Login. Registration
- View egg donor profiles
- Download donor profiles in pdf
- Book a donor
- Booking history
- Personal account (edit credentials, photos)

The login screen features the OVOSS logo at the top. Below it, the word "Login" is centered. There are two input fields: "E-mail address" and "Password". The password field has an eye icon for toggling visibility. Below the fields are two buttons: "Log In" (blue) and "Create an account" (pink). A checkbox for "Remember Me" and a link for "Forgot Password?" are also present. At the bottom, there is a pink button labeled "Create an account" and a small text block stating: "If you do not have an account, register to get free unlimited access to egg donor profiles, adult photos, personal information and family medical history."

The donor profile screen shows a search bar at the top with the text "Search by donor ID". Below the search bar are two tabs: "PERSONAL INFO" (active) and "MEDICAL HISTORY". A large photo of a woman is displayed. Below the photo, the text "Donor ID 23255" is shown. At the bottom, there are two icons (a download arrow and a heart) and a pink button labeled "Book a donor".

The "Test Client" screen displays a client's profile. It includes a photo of a woman, the name "Test Client", and status "Active". The role is listed as "User (client)". Below this, there are two sections: "Personal information" and "Professional information". The personal information section includes fields for Address, Country, Postal code, City, Phone number, Email, and Notice. The professional information section includes fields for Company name, Branch, and Position.

Deployment stages

01

Consultation

We'll start with a consultation to understand your specific needs, and provide recommendations for how Ovoss can best support your operations.

02

Customization

Once we've identified your needs, we'll work with you to customize the system to meet your requirements. This may include donor booking system custom branding, specific donor data structure, or integrations with other systems you use.

03

Data Migration

If you're transitioning from another system, we'll help you migrate your existing data to ensure a smooth transition.

04

Testing and Training

We'll conduct thorough testing to ensure that the system is working properly, and provide training to your team to ensure they're fully equipped to use Ovoss

05

Deployment

Once everything is ready, we'll deploy Ovoss and provide ongoing support to ensure that everything continues to run smoothly.
